Editorial

Well Easter time is upon us once again and it seems to have been no time since our Christmas holidays. The weather is still very unpredictable, so much rain, maybe the autumn season will be great.

I would like to wish all of our members a happy and safe Easter holiday and for all those P76 enthusiasts heading for Queensland for the National meeting, have a great time and safe driving to you all.

The book that is being produced by the BMC Leyland Heritage Group will be available shortly and it will be a great addition to any member's collection. It is titled "Building Cars in Australia".

Please note that there will be no club meeting in April and no newsletter due to the National Meeting in Queensland.

That's it for now and once again I wish you all a safe and happy holiday break

Joe Green

Please Note

There will be no club meeting in April and also no club newsletter.

Get Well Message

To Rick Hopkins who is recovering after his recent hip operation

BMC HERITAGE GROUP NEWS

The club has ordered a number of copies of "Building Cars in Australia" from the group and if you wish to purchase one please contact the club as soon as possible. The story is about the Victoria Park car plant and is told in this 224 page hard cover book with 400 images, many in colour.

The Victoria plant was built in the 1950s and had about 5000 employees speaking 35 languages and supplied such cars that passed into motoring legend: Morris Minor, Morris Major, Austin Freeway, The Mini and of course the Leyland P76.

This book has been made possible because of a grant from the city of Sydney and will later on be available in bookshops and other outlets. This book is a **must buy** for our members.

BERRIMA RALLY 2012

Once again another meeting that was disrupted by rain! So on Saturday 11 February 2012 we arrived at the venue, Mittagong Public School at about 9.30am. It was raining so we decided to have a cup of coffee and scones (provided by the host club) under the sheltered pavilion area.

We met up with many old friends from previous years including Gary and Val Grout who are members of the Tamworth Antique Club and as usual had brought along their award winning 1964 Cream EH Holden (most original car).

The rain eventually eased off so we were able to view the cars on display this year. The numbers were down due to the bad weather but there was a very nice Marina on display owned by Bob and Ann Tuckwell. There were so many Fords, Chevs, Morris's, MGs, also a good selection of trucks that were outstanding. Also the local funeral company once again had on display their Rolls Royce Silver Ghost funeral hearse.

In the afternoon we went to Lake Alexandra, a very quiet and peaceful place. The dinner/dance at the RSL went off very well and the theme this year was " Life on the Farm".

The car this year that won the award for the most unique car was a 1961 Renault Dauphine owned by Chris and Keiko Hartwell. It is a great car in original condition. We had a great time and look forward to next year.

Joe Green

BERRIMA RALLY

2012 JUDGING

SATURDAY JUDGING

Winner: Kevin & Cathryn Crocker, 1965 Ford Falcon Coupe

Runner Up: Paul & Ann Antcliff, 1934 Ford 6-wheeler sedan

Evapo-Rust RUST-BLOCK

WATER-BASED RUST INHIBITOR

Based on our award winning Evapo-Rust™ rust removing technology, Rust-Block™ is a liquid compound that inhibits rust on all ferrous metals, yet is harmless to skin or environment.

Use it to protect your tools,
auto parts, hardware,
garden equipment
and more

How It Works:

Rust-Block is a biodegradable liquid compound that inhibits rust on all ferrous metals. Rust-Block is designed to inhibit flash rusting on metal or ferrous items that have been de-rusted, and are stored indoors. Rust-Block is sold in concentrated form that will inhibit rust for up to 6 months depending on surface finish. As Rust-Block is a water based product it is not suitable for outdoor use. Rust-Block can be sprayed on, or the items being protected can be dipped for complete coverage. To remove the protective coating prior to processing, all that is required is a quick rinse with water.

Rust-Block can be diluted for shorter term protection. Rust-Block is non-corrosive, non-flammable and won't expel fumes or bad odours.

Directions:

Make sure item is clean and dry. Items can be immersed or sprayed with Rust-Block to obtain necessary coverage. Allow to air dry. Store item indoors. Avoid moisture.

Transportation:

Evapo-Rust™ is non-hazardous and ships by any normal postal or regular freight service.

Life Capacity/Storage:

Rust-Block has an indefinite shelf life.

FAQs:

Can you paint over Rust-Block?

It is recommended that item being prepared be rinsed and dried before paint application.

Is Rust Block Suitable for Outdoor use?

No. Rust-Block provides a water based protective layer that will wash off when rinsed. Rust-Block is suited for indoor storage where materials are left in their raw state.

Is Rust-Block Flammable?

No.

Does Rust-Block leave a tacky surface residue?

No. Rust-Block leaves an invisible protective layer which will not attract dust or lint.

Can Rust-Block be diluted?

Yes but this will reduce time items are protected.

Can you weld items that have been protected with Rust-Block?

Rust-Block will not affect the quality or inhibit welding.

Evapo-Rust™ Rust Remover and Rust-Block™ are available in:

1 litre, 5 litre, 20 litre, 100 litre and 200 litre quantities.

Aluminate™ and Cooling System Flush™ are available in:

5 litre, 20 litre, 100 litre and 200 litre quantities.
