## *PRESIDENT'S RAMBLINGS*

Well it's been a while since I've done this, but the time has come. I've been in hibernation from the club for a couple of years and now want to give the Club my best shot. There are a number of things I have to get in order. Firstly our Bitter Apricot Deluxe needs to get on the road again. It is laid up in the backyard at the moment able to run but needing a dose of compression powder. It is hard to start in the mornings but once started is fine for the rest of the day. A shot of "Start You Bastard" gets it going so it's nothing serious. Power steering rack leaks and needs topping up every couple of weeks, nothing a recond rack won't fix. A blemish on the roof where the roller door come down on it while reversing out of the carport, nothing a rub down and paint won't fix and one rusty door needs changing, just a couple of hours work really. As the weather warms up the time spent in the shed grows proportionally so sometime this summer should see "Sherman" mobile again.

With our new committee, I would like to take the Club forward perhaps differently to the last few years. I think we need to shift the profile of the P76 in this state to a classic 70's car and not just a cheap mode of transport. Car shows and club runs, cruises and the like are probably a good way of getting the car out there. I guess the usual question is "What do you, the members, want?" Answer please

Let's go back to the Club's constitution, the objects of the club or in today's jargon

### **Our Mission Statement**

- To promote the Leyland P76 and Force 7 vehicles
- To maintain a continuing supply of replacement parts for these vehicles
- To publish a regular newsletter which will be of the greatest technical interest to owners of these vehicles
- To provide a common medium through which members can exchange information easily
- To organize social activity linked with these vehicles for the enjoyment and benefit of members and families
- To put forward to Leyland Australia objections, suggestions and requests as a united body in an effort to obtain justice for P76 owners with regards to parts and pricing
- To try and keep at the Clubs fingertips current information on parts availability Australia wide
- To foster and promote competition events involving P76s
- To be a non-profit organization

When we look at this, some things are still happening and constantly improving and remembering that this was written in 1982, the common medium to exchange information has changed somewhat from how it was perceived then. Suggestions and requests to Leyland Australia will fall on deaf ears these days but I think the basic concept is still pretty sound.

More next time

Regards Nigel

## **WILLUNGA SWAP MEET AUGUST 19<sup>th</sup>**

We rocked up there early for us on a Sunday morning about 9 really a late start for a swap meet. Weather was cool and dampish but OK, a couple of light showers passed through while we were there. The usual array of Holden and Ford parts monopolized the trading tables with no little blue boxes or even the usual P76 tail light to be seen. But it is always worth a look.

Nigel & Dianne

Maybe next time

*Geoff Cutting - Spare Parts Officer*

I would like to ask you to be patient with the patient.

I am currently spending some time in and out of hospital for treatment and not able to get back to you immediately. Chris is following up as much as she can in consultation with me. It is still business as usual only taking a bit longer. Thanks Geoff
